THERE IS *POWER* IN TOGETHER

Liverpool Experience Campus is a place where world-class events meet a world-class city. Our site features a series of interconnected, purpose-built venues and on-site hotels, including an award-winning convention centre with a central auditorium, 11,000 capacity arena, and multi-hall exhibition centre.

Our track record speaks for itself – successfully hosting national and international events 365 days a year. From multi-venue conventions to party political conferences, product launches to showcase exhibitions – we connect people, ideas and experiences in unforgettable ways, creating moments that matter.

We are 100% owned by the city of Liverpool, founded as a destination for people to experience life’s most impactful experiences in the arts, culture, innovation and ideas – together. We are a partner to our clients, a place of moments, magic and memories for our guests, and a gateway to the extraordinary city we call home.

CONVENTION CENTRE

The Convention Centre at Liverpool Experience Campus is a space that works just as hard as you do, whatever the size of your event.

At its heart sits a 1,350-seat tiered auditorium with innovative rotating drums, alongside a 3,725m² exhibition hall and adaptable breakout rooms that can be split, combined, and configured to suit your agenda.

A light-filled central galleria brings everything together, seamlessly linking the convention centre to the M&S Bank Arena.

Here, you'll find an additional 3,400m² of exhibition space, tiered seating for up to 4,000 delegates, and a versatile tracking drape system, giving you even more room to think big and deliver with impact.

UPPER LEVEL

The upper level of the convention centre is purpose built for conferences, whether you want spectacular views across the Mersey as your backdrop or a blank canvas to make your own.

The auditorium is central to the venue, with its 1,350 theatre-style seats, impressive stage, and even more impressive revolving drums. These two areas can be used for 247-seat lectures or turned and closed off to make the auditorium smaller. It's a brilliantly flexible yet effective facility.
